

A NOVA Science Café presented
by DRI and The Discovery

SCIENCE DISTILLED: LAKE TAHOE, A GLOBAL SUCCESS STORY

Date: Wednesday, May 23 | **Time:** Doors open at 7:00pm, presentation at 7:30pm

Location: Patagonia Outlet, 130 S. Center Street, Reno | **Ages:** 21+ (I.D. required)

Tickets: \$10 members/\$15 nonmembers at sciencedistilled.org or at the door

We are all proud of our bright blue, watery gem that splashes at 6,225 feet above sea level. It is easy to soak in the vistas of Lake Tahoe and overlook the labors of love that went into sustaining the health of its waters from threats like stormwater pollution and aquatic invasive species. At this Science Distilled, you'll hear from scientists and community organizers on the front lines of maintaining the quality of the water at Lake Tahoe and how you can get involved in the efforts.

Science Distilled, a lecture series created by Desert Research Institute and The Discovery, makes cutting-edge science approachable through presentations on current and curious topics held at hip locations in a social atmosphere.
