

CURRICULUM VITAE

(April, 2020)

ERICK R. BANDALA

Division of Hydrologic Sciences, Desert Research Institute.

E-mail:erick.bandala@dri.edu;

PHONE:(702) 862 5395

Country of Birth: Mexico

Citizenship: Mexican

Education

Degree Awarded	Field	Institution	Date
PhD	Engineering	UNAM	2004
MS	Organic Chemistry	Morelos State University	1997
BS	Chemical Engineering	Veracruz State University	1991

Professional Positions

January 2016-Present. Assistant Research Professor. Division of Hydrologic Sciences. Desert Research Institute. Las Vegas, NV, USA.

April 2013-December 2015. Full Professor. Department of Chemical, Food and Environmental Engineering. Universidad de Las Américas-Puebla, Mexico.

August-December, 2014. Visiting Professor. Department of Environmental Technology and Design. Appalachian State University. Boone, NC, USA

2007-2013 Associate Professor. Department of Civil and Environmental Engineering. Universidad de Las Américas-Puebla, Mexico.

2009-2013 Graduated Studies Director. Department of Civil and Environmental Engineering. Universidad de Las Américas-Puebla, Mexico.

1993-2007 Titular Researcher. Mexican Institute of Water Technology (IMTA), Ministry of Environment, Mexico.

1998-2007 Adjunct Professor. Department of Civil and Environmental Engineering. National Autonomous University of Mexico, Mexico.

Honors and Awards

1. 2019 Jorge M. Remus Award, University of Guadalajara, Mexico.
2. Fall 2014, Visiting Professor. Department of Environmental Technology and Design, Appalachian State University, USA.
3. 2013 UDLAP Distinguished Teaching Award
4. Puebla State Science and Technology Award 2012 in Environmental Technology, Sustainable Development and Renewable Energy.
5. Professional Hydrologist Water Quality. American Institute of Hydrology. July, 2010 (Certification Number 10-HWQ-2008).
6. Puentes Consortium Fellow (2010-2012).
7. Rice International Visiting Fellow on Energy, the Environment and Sustainability 2008-2009.
8. National Researcher (Level II). National Council of Science and Technology-Mexico 2013-2017.
9. National Researcher (Level I). National Council of Science and Technology-Mexico 2004-2013.
10. Visiting Professor. School of Civil and Agricultural Engineering. Universidad de Concepción, Chile 2004 and 2008.
11. Invited Researcher. Plataforma Solar de Almería, Spain 2000.

Scientific publications

Refereed journal articles (peer-reviewing)

Consultancy projects

148. Wastewater treatment and re-use in Clariant Mexico. Clariant International Ltd. Mexico.
149. Design and supervision of the waste water plant, TermoEsmeraldas. Ecuador.
150. Design and construction of an experimental prototype for water detox and disinfection in rural, isolated zones by advanced oxidation processes (DARA-PAO). Consultant project report grant G-28550443. Universidad de las Américas, Puebla. Mexico.
151. Water quality in reservoirs of the Lerma-Chapala basin, Mexico. Research project report grants TC-0587 and TH-0517. Ministry of Environment. Mexico.
152. Water effluent characterization and treatment in Pajaritos petrochemical complex, Mexico. Consultant project report grant B-1511208. PEMEX S.A. Mexico.
153. Study of pre-treatability of wastewater from petrochemical complexes in south-east Mexico. Consultant project report grant TC-0227. PEMEX S.A. Mexico.
154. Underground water quality evaluation in northern-central basins, Mexico. Consultant project report grants TC-0257. Ministry of Environment. Mexico.
155. Organochloride compounds spreading from Pajaritos petrochemical complex wastewater. PEMEX S.A., Mexico.
156. Water quality in the Suchiate river, Mexico. Consultant project report grant 4050/01-GRFS-CA-1. Ministry of Environment. Mexico.
157. Water quality in the Ensenada bay, Mexico. Consultant project report grant CAN/SGT-IMTA-2000. Ministry of Environment. Mexico.
158. Application of photocatalysis for the treatment of wastewater using solar radiation. Consultant project report grant 400373-5-28091T. Ministry of Environment. Mexico.
159. Water quality in Acapulco bay, Mexico. Consultant project report grants TC-9917. Ministry of Environment. Mexico.

Presentations and invited lectures

160. Keynote. Environmental Restoration Using Nano-sized Materials for Application in Advanced Oxidation Processes. Invited Lecture at the Environmental Engineering and Earth Sciences Department, Clemson University. Clemson, SC.
161. Keynote. Using Solar Energy for Water Quality Enhancement: An Interdisciplinary Point of View. Invited Lecture at the Sustainable Technology and Design Environmental Studies Program, Department of Physics and Astronomy. Colgate University. Hamilton, NY.
162. Keynote. Mexico-US Border and the Environment: Implications for binational water relations. Invited Lecture at the Higher Education Leadership Forum US-Mexico Border Security- A Binational Perspective. Rice University, Houston Texas. Jan 13-14, 2010.
163. Keynote. Alternative Energies Perspectives in Mexico. Invited Lecture presented at the North American Energy Roundtable. University of Nevada at Las Vegas. Las Vegas, March 27, 2009.
164. Plenary. Water treatment using advanced oxidation processes. Invited seminar presentation at the Department of Civil Agricultural Engineering. Universidad de Concepción, Chile. May, 2008.
165. Keynote. Advanced methods for water disinfection. Invited podium presentation at the Department of Civil Agricultural Engineering. Universidad de Concepción, Chile. May, 2008.
166. Plenary. Pathogens deactivation in water using oxidation processes. Invited podium presentation at the Department of Chemistry. Universidad Autónoma de Nuevo León, México. April, 2008.
167. Plenary. Advanced oxidation processes for water disinfection and decontamination. Invited podium presentation at the International Symposium Mexico-Canada on Advanced Technologies for Drinking water and wastewater Treatment. Instituto Tecnológico de Celaya, México. March, 2007.
168. Plenary. Water quality for irrigation: fundamentals and pollution mitigation. Invited seminar presentation at the Department of Civil Agricultural Engineering. Universidad de Concepción, Chile. September, 2004.
169. Keynote. Application of solar driven advanced oxidation processes for pesticide degradation in water. Scaling-up of the process. Invited podium presentation at the Department of Chemistry. Universidad de Las Américas-Puebla, Mexico. February, 2005.
170. Keynote. Advanced oxidation processes. Invited podium presentation at the Department of Civil and Agricultural Engineering. Universidad de Concepción, Chile. September, 2004.
171. Water decontamination using solar energy. Invited podium presentation at the Department of Chemistry. Universidad de Las Américas-Puebla, Mexico. February, 2004.
172. Water disinfection using photocatalysis, experiences in Mexico. Invited podium presentation at the Peruvian Institute of Nuclear Energy, Peru. November, 2003.
173. Environmental technology: Water quality and treatment. Invited podium presentation at the International Forum on Ecology and Sustainable

Development. Xalapa, Mexico. September, 2002.

Current and previous research grants

US Funded Projects

1. Cost-effective, chemical free-water decontamination technology for developing countries. Funded by One Drop \$30,000.00 January-April 2019.
2. Degradation of emerging contaminants in treated wastewater using immobilized nano-ZVI. Funded by the National Institutes of Water Resources-USGS, USA. \$162,189.00 May 2018-May 2020.
3. WASH Capacity building plan. Funded by World Vision International. \$2,748,898.00 March 2018-March 2023 (In collaboration with Braimah Apambire, Desert Research Institute).
4. Safeguarding the health and well-being of communities vulnerable to extreme heat in the Southwestern U.S. and Northwestern Mexico transboundary region. Funded by the National Oceanic and Atmospheric Administration (NOAA) \$218,232. September 2018-August-2020.
5. Chlorinated Solvents Remediation using Cost-Effective/Reusable Novel Nanomaterials: Lab Scale approaches and process scaling-up. Funded by Department of Energy (DOE), USA. \$189,622.00 September 2017-August 2018 (In collaboration with Jaeyun Moon, University of Nevada, Las Vegas)
6. NSF EPSCoR Solar Energy-Water-Environment Nexus in Nevada. Funded by NSHE/NSF EPSCoR, USA. \$2,007,723. January 2016-November 2018 (In collaboration with Markus Berli, Desert Research Institute).
7. Renewable energy, energy efficiency and competitiveness: A Partnership between Appalachian State University and Universidad de Las Americas Puebla. Funded by the Higher Education Department (US-HED). \$300,000.00. October 2009-September 2012 (In collaboration with Jesse Lutabingwa, App State University, USA).
8. Enhanced photocatalytic solar disinfection of water. Funded by the US Environmental Protection Agency (USEPA) P3 Program Grant, USA. \$10,000. September 2008-August-2009. (In collaboration with D.D. Dionysiou, University of Cincinnati, USA).
9. Detoxification of water from soil washing systems using Advanced Oxidation Processes. Funded by the National Science Foundation, USA. \$96,000.00. (In collaboration with D.D. Dionysiou, University of Cincinnati, USA). June 2005-July 2007.
10. Hydroxyl Radical and Sulfate Radical-Based Advanced Oxidation Nanotechnologies for the Destruction of Biological Toxins in Water. Funded by Ohio Board of Reagents, \$62,262, July 2005-June, 2006. (In collaboration with D.D. Dionysiou, University of Cincinnati, USA).

International Funded Projects

11. Appropriate Technology and Climate Change Adaptation for Water Resources Management. Funded by the British Council (UK). £ 21,100.00 January, 2015 (In collaboration with Morgan Adams, Robert Gordon University, UK).
12. Prototype design and building of an experimental prototype for water disinfection and detox in isolated rural areas using Advanced Oxidation Processes (DARA-PAO). Funded by the MAPFRE Foundation (Spain). €15,000.00 January-December 2010.
13. Water disinfection and detoxification in isolated rural areas using advanced oxidation processes (DARA-PAO). Founded by the Spanish Agency for International Cooperation (AECID), USD \$36,000.00. January-December 2009 (In collaboration with C. Dopazo, Universidad de Zaragoza, Spain).
14. Identification of oxidation by-products generated after the application of Advanced Oxidation Processes for the degradation of red tide-toxins in water. Funded by the National Council of Science and Technology, Mexico. USD\$ 110,000. January 2012-December 2015.
15. Design of coupled sequential conventional-non conventional wastewater treatment system for effluent decontamination in Veracruz, Mexico. Funded by the National Council of Science and Technology, Mexico. USD\$ 200,000. July 2010-February 2013.
16. Water quality vulnerability to climate change in selected basins from Mexico. Funded by the Ministry of Environment-Mexico. USD\$ 20,000.00. January-December 2010.
17. Soil washing wastewater decontamination using advanced oxidation processes coupled with biological treatment. Funded by the National Council of Science and Technology, Mexico. USD\$ 201,000. September 2008-August 2010. (In collaboration with L.G. Torres, UPIBI-IPN).
18. Solar photocatalytic disinfection of water as effective alternative in the prevention of waterborne illnesses in rural marginal zones of Mexico. Funded by the National Council of Science and Technology, Mexico. USD\$ 10,000. October 2008-September 2009.
19. Water Quality in Zahuapan River, Mexico. Funded by the National Council of Science and Technology, Mexico. USD\$ 35,000. January 2006-February 2007. (In collaboration with V. Ramírez, IMTA).
20. Integral Plan for Tamiahua Lagoon, Tamiahua, Mexico. Funded by The National Council of Science and Technology, Mexico USD\$ 150,000. January 2007-December 2008. (In collaboration with B. Corona, University of Las Américas-Puebla).
21. Water Quality in Reservoirs from the Lerma-Chapala Basin, México. Funded by the Ministry of Environment, Mexico (SEMARNAT). USD \$80,000.00. March-December, 2005.
22. Biopesticide Development for Aquatic Weed Control. Funded by the National Council of Science and Technology, Mexico. USD\$185'500.00. February 2003-February 2006. (In collaboration with M. Martínez, IMTA).
23. Development of energy saving systems in disinfection processes using solar energy. Funded by the National Council of Science and Technology, Mexico. USD\$56,000.00. December 2005-November 2007.

24. Detoxification of Wastewater from Textile Industry Using Solar Photocatalysis. Funded by the National Council of Science and Technology. USD\$30,000.00. January-December 2006.
25. Detoxification of Pesticide Contaminated Water Using Solar Photocatalysis. Funded by the National Council of Science and Technology. USD\$100,000.00. May 2005-April 2007. (In collaboration with S. Gelover, IMTA).
26. Application of Sequential Disinfection Processes to Helminth Eggs. Funded by the National Council of Science and Technology. USD\$56,000.00. September 2005-October 2008. (In collaboration with B. Corona, Universidad de Las Américas-Puebla).
27. Toxicological Evaluation of Tampico-Madero Beaches, Mexico. Funded by the National Council of Science and Technology. USD\$150,000.00. September 2005-August 2007. (In collaboration with Y. Pica, IMTA).

Total Research Funds Received Individually (1/2016-to date):	\$ 410,421.00
Total Research Funds Receive In Collaboration (1/2016-to date):	\$ 4'946,243.00
Total Research Funds Received (2016-to date):	\$ 5'356,664.00

2005-present	
Total Research Funds Received Individually (2005-to date):	\$ 1'040,921.00
Total Research Funds Receive In Collaboration (2005-to date):	\$ 6'285,969.00
Total Research Funds Received (2005-to date):	\$ 7'326,890.00

Graduate students advised

Current students

Master's students

Ahdee Zeidman, University of Nevada, Las Vegas.

Undergraduate students (research)

Brent Laney, Nevada State College.

Adam Clurman, Nevada State College.

Former students

Postdoc Students

Teresa Palacios, PhD

PhD Students

Irving Ramírez. Universidad de Las Américas, Puebla.

Luz del Carmen Huesca, Universidad de Las Americas, Puebla.

Laura Sol Pérez. Universidad de Las Américas, Puebla.
Veronica Auriolos López. Universidad de Las Américas, Puebla.
Jordana Castillo Ledezma. Universidad de Las Américas, Puebla.

Master's students

Oscar Rodríguez. Universidad de Las Américas, Puebla.
José Luis Alvarez. Instituto Politécnico Nacional.
Laura Sol Pérez. Universidad de Las Américas, Puebla.
Jordana H. Castillo. Universidad de Las Américas, Puebla.
Roberto Moreno. Universidad Veracruzana
Manuel Sanchez. Universidad Nacional Autónoma de México
Leónidas Pérez. Universidad Autónoma de Sonora

Undergraduate students

Kim Noel. Applachian State University. USA
Matt Freer. Appalachian State University. USA
Carlos Burgueño. Universidad de Las Américas-Puebla.
Alba Bueno. Universidad de Las Américas, Puebla.
Margarita Maldonado. Universidad de Las Américas, Puebla.
Bernardo Tiro. Universidad de Las Américas, Puebla.
Mariana Luján. Universidad de Las Américas, Puebla.
Armando Castañeda. Universidad de Las Américas-Puebla.
Gerardo Martínez. Universidad de Las Américas-Puebla.
Fernando Aguilar. Universidad de Las Américas-Puebla.
Victor Mastache. Universidad de Las Américas-Puebla.
José Luis Sánchez. Universidad de Las Américas-Puebla.
Francisco Camargo. Universidad de Las Américas-Puebla.
Horacio Cossio. Universidad de Las Américas-Puebla.
Liliana Gonzalez. Universidad Autónoma del Estado de Morelos
Bernardo Vazquez. Universidad de Las Américas-Puebla
Manuel Figueroa. Universidad de Las Américas-Puebla
Miguel A. Pelaez. Universidad de Las Américas-Puebla
Fernanda Rivas. Universidad de Las Américas-Puebla
Guadalupe Segobia. Universidad Veracruzana
Jessica Manrique. Universidad Veracruzana
Sayra Orozco. Universidad Autónoma de Zacatecas
Martha Zárate. Universidad Autónoma del Estado de Morelos
